MR

MEMORANDUM FOR: Director of Central Intelligence

FROM : NSC Coordinator

OLC #78-0399/113

SUBJECT : Title I Charter Legislation

1. Per our discussion this morning I talked with Sam Hoskinson on the status of the Presidential Decision Memorandum.

a. The Decision Memorandum is now in the President's "IN" box. There is no feel for when he will get to it.

b. Four issues have been set forth for Presidential decision/consideration:

- DNI as head of CIA
- DNI level (and, depending on that decision, the ADNI level)
- Confirmation by Senate of ADNIs
- Reporting to Congress

2. On the last issue (Reporting to Congress) you are currently on record as supporting the DoD revised language replacing that of S.2525 and E.O. 12036. In a meeting on Monday, 11 September, with the DDCI and Fred Hitz you discussed a possible change in your position on this issue to support the Attorney General/State favored option of including in Section 152(a) the E.O. 12036 language requiring "such procedures as the President may establish."
